

Don't Make Me Come Over There and Love You

[George Strait](#)

(Jim Lauderdale/Carter Wood) Don't make me come over there and love you

I'll be beside you in a single Bound

Don't make me come over there and love you

Cause I will right now I don't need any explanation

Why I crave all your honey talk

Don't make me come over there and love you

'Cause it's a short walk Chorus

You better tone down

Your persuasion

Start behaving

Before I go and fall apart My hearts been on a long vacation

And now it's beating like a Cha-Cha-Cha

Don't make me come over there and love you

'Cause I will right now Chorus

Don't make me come over there and love you

Because it's looking like a perfect spot

Don't make me come over there and love you

And give all I got

Don't make me come over there and love you

'Cause I will right now

Yes I will right now

Don't make me come over there and love you
