Still Waiting

embrace today

Well i'm still waiting for everything you said you'd do for me,
I helped you out, I picked you up,
And you never had the chance to say,
You make me lokk do fucking bad,
Time and time again,
I guess I can't count on you for anything,
Every time I look around I see that nothing's changed,
You're still the same piece of shit you were,
I see that nothing's changed,
How can you expect me to listen to a word you fucking say?
When i can't count on you for anything,
You make me look so fucking bad,
Time and time again,
I guess I can't count on you anything,
Every time I look around I see that nothing's changed,
You're still the same piece of shit you were,
I see that nothing's changed,
I'm still waiting for you
