

Don't Let Go

[Olivia Broadfield](#)

Tell me I've got the patience, all in good time
Just take my hand and we'll make a run for it,
We'll be fine yeah, we'll be fine so Can't you turn back, all eyes are on you
It's been like that since you came into the room
I've got a feeling it's just the start for you
Don't let go, don't let go, don't let go
Don't let go, don't let go, don't let go We'll get the better of you, you're doin just fine
When heart beat stops and you're stuck in a moment you
Will be fine, you will be fine so... Can't you turn back, all eyes are on you
It's been like that since you came into the room
I've got a feeling it's just the start for you
Don't let go, don't let go, don't let go
Don't let go, don't let go, don't let go Don't let go, don't let go, don't let go
Don't let go, don't let go, don't let go
Don't let go, don't let go, don't let go
Don't let go, don't let go, don't let go Can't you turn back, all eyes are on you
It's been like that since you came into the room
I've got a feeling it's just the start for you
Don't let go, don't let go, don't let go
Don't let go, don't let go, don't let go
