

One Night

Jesse McCartney

What would you do if I gave it all to you
And I traded in the limelight?
What would you say if I threw it all away
Just to be with you for one night?
What, would I turn your head round?
Would you take my hand?
'Cause you knocked my senseless
Girl, I will do anything
For just one night, we only got one night
I'm looking in your eyes, they're taking me over
Girl just one night, we only got one night
Till we see the sunrise, before it's all over
Till the night fades away in my arms you will stay
For this one night, we only got one night
Yeah this is our last night, before it's all over
Whoa, oh, oh, oh,
if only for one night
whoa, oh, oh, oh
What if I told you that I have always loved you
But never got a fair shot?
What if you knew that when I look at you with someone else
It makes my heart stop?
What, would you keep me chasing?
Would you play it cool?
Girl won't you give me something?
'Cause I've given everything
For just one night, we only got one night
I'm looking in your eyes, they're taking me over

Girl just one night, we only got one night
Till we see the sunrise, before it's all over
Till the night fades away in my arms you will stay
For this one night, we only got one night
Yeah this is our last night, before it's all over
Whoa, oh, oh, oh,
if only for one night,
whoa, oh, oh, oh
If only for one night.
whoa, oh, oh, oh

if only for one night
whoa, oh, oh, oh
I can't find peace without you
I can't feel nothing when you're gone
I'd walk this earth to find you
Now here we are
For just one night, we only got one night
I'm looking in your eyes, they're taking me over
Girl just one night, we only got one night
Till we see the sunrise, before it's all over
Till the night fades away in my arms you will stay
For this one night, we only got one night
Yeah, this is our last night, before it's all over
Whoa, oh, oh, oh,
if only for one night
whoa, oh, oh, oh
if only for one night
whoa, oh, oh, oh
if only for one night, one night, one night,
whoa oh
