Stagefright

Shortstraw

Walking in the shadows
Constantly evading the light
Shattered dreams cry out
As you move through the night
Cautiously I look around
A sense of fear tells me you're near
Suddenly I catch a glimpse of that frozen stateStagefright whenever I see you
Stagefright whenever I'm near you
Stagefright stagefright
Whenever it's youI know I should just walk away
But the feeling's so hard to ignore
Magnetic eyes hypnotize
As you peer through the door
You know my every weakness
You control the movement and sound
From the dark I hear you voice
But there's no-one aroundStagefright whenever I see you
Stagefright whenever I'm near you
Stagefright stagefright
Whenever it's youYou speak my name and I'm breathless
I can't run I can't hide wanna scream
All motion stops as if in a dream
Just one more hour to midnight
The witching hour is at hand
There's no use running
Now I know I'm part of your planStagefright whenever I see you
Stagefright whenever I'm near you
Stagefright stagefrightStagefright whenever I see you
Stagefright whenever I'm near you
Stagefright stagefrightStagefright whenever I see you
Stagefright whenever I'm near you
Stagefright whenever I see you
Stagefright whenever I'm near you
