

The Miracle

[Kelley James](#)

Good loving and more than faded jeans
Love when I feel the dreams
Like when I feel scenes
Shes gone now and no one, no one stays
Love gonna make me pay, life gonna give away
Youve got your mind made up this time
And you are so afraid that I, you are so afraid that I
Here in you wait (your way)
Youve got your mind made up this time
You are the miracle
Loving you wait (your way)
Youve got the love you want to find
You are the miracle
We feel it down when you feel the dawn
Love what you say is gone
Like when I want it gone
I feel that love gon give it all
Love when I wake and fall
Like when I give it all
You want to let it go, why
You want to let it go, why
