

# You're a Superstar

## Love Inc.

Reach for the sky and hold your head up high,  
For tonight and everynight, you're a superstar.  
And don't you be afraid,  
Think of all the friends you've made,  
Like any other night you've got your name in lights,  
You're a superstar.  
In a world that gives everything,  
Don't you know that it don't mean a thing at all, at all for a superstar.  
You gotta find a raindow,  
Tell the world what everyone else knows,  
Don't let them tell you again about life,  
Cause you know You're a superstar.

So reach for the sky and hold your head up high,  
For tonight and everynight you're a superstar.  
And don't you be afraid,  
Think of all the friends you've made,  
Like any other night you've got your name in lights,  
You're a superstar.

Everything you are today, Is what you want to be.  
So don't be someone else when you be the best so easily.  
If you try, and believe, my baby you'll succeed,  
And your eyes will make you see,  
You're a superstar.

So reach for the sky and hold your head up high,  
For tonight and everynight you're a superstar.  
So don't you be afraid,  
Think of all the friends you've made,  
Like any other night you've got your name in lights,  
You're a superstar.
