Forget About Me

Unbelievable Truth

They're now just fading in my mind
Irrelevant echoes of mankind
I never met their demands
And they never gave me half a chance

And I don't know another theme to talk about
But I don't ask for your help
So you can just
Forget me, forget about me

Forget me, forget about me
Traitors to the open-hearted
Consigned me to my fate
Then named their own price

To leave with the story
But still
I'm thinking of ways to keep
My pride from running out

Thinking of ways to keep my time from running out
Thinking of ways to keep my pride from running out
Thinking of ways to keep my time from running out
Forget me, forget about me

Forget me, forget about me
Forget me, forget about me
Forget me, forget about me
