Dirt

McQueen

Take it out on me why don't you
your losing ground your losing face
you fooled around and you dragged me down from grace
(Chorus)
Your dirt and you know it boy *don't try and cause me hurt your dirt*
Your dirt and your never gonna get inside me ya
You'll never get inside my head
But now you've got me seeing red
Breathe in Breathe out I know who I am
I don't need you there to break my fall
Sorry baby but I don't need you at all
(Chorus)

Checks his history on his ICQ account
he's sure there's nothing wrong
One things for certain lay a hand on me your gone
Don't try to touch me baby
(Chorus)
You'll never get inside my head
But now you've got me seeing red
(Chorus)
But now you've got me seeing red
