

Honey & I

HaÃm

[verse 1]

Goodnight, I know there's nothing good in goodbye
But you lead me to no other line, no other line
Eyes wide when you walked through the door, you
Made your way across the floor
All of the girls that're trying that dance, try that dance[Bridge]
No, no, no, no
See I'm not afraid no more
(I'm not afraid no more)
To turn you away no more
(Turn you away no more)
To turn you away, to turn you away[Chorus]
Cause my honey and I, yeah yeah
My honey and I (x3)
D-doing just fine, yeah
Honey and I (honey and I)
My honey and I (x3)
D-doing just fine, yeah[Verse]
Oh, no, no, no
I don't love you just because
Love wasn't what I thought it once was
But I thought it once was
Telling each other everything
Picking up your wedding rings
No, now I know and now I see
I'm not afraid no more
No no no no no no[Bridge]
So why are you always trying to stay at home?
(Why are you staying there?)
This all can't be played alone
(This all can't be played alone)
It was made to be played with...[Chorus]Oh oh (oh oh) (x2)
Ah ah yeah
