

# Mutiny

## Running Wild

Pain of hunger's growing stronger  
Wages are gone, can't wait no longer  
Have to sign on under every flag  
If I want to live, I have to fag Engaged, I hit the sea  
Never thought of mutiny  
Work's hard, the pay is low  
Treated bad, our anger grows The water barrels going bad  
Daily a sailor dies by fag  
Whip crack pain's the holy law  
They're going far, this means war Stand up and fight  
Stand up and fight  
Stand up and fight  
Stand up and fight Seaman disobeys a law  
The whip cracks, flowing gore  
He gets a hundred cuts, one too much  
His death feeds our grudge Engaged, I hit the sea  
Never thought of mutiny  
Work's hard, the pay is low  
Treated bad, our anger grows Water barrels going bad  
Daily a sailor dies by fag  
Whip cracks pain's the holy law  
They're going far, this means war Water barrels going bad  
Daily a sailor dies by fag  
Whip cracks pain's the holy law  
They're going far this means war With grinning looks we precede  
Revenge for the ones who bleed  
Circling bastards I suggest  
Their eyes show fear, they're thrilled
