

Lion (In My Head)

MOTi

My mind is open
My senses come alive
Danger in motion
A jungle deep inside
Images are clearing out
As we run so far away
In my head, lost in lies
See the truth in your eyes
Raise our hands, take the night
Illusions fade tonight
In my head
In my head, lost in lies
See the truth in your eyes
Raise our hands, take the night
The last to chase the light
In my head, lost in lies
See the truth in your eyes
Raise our hands, take the night
Illusions fade tonight
