

# InstruMETAL

## Haste the Day

I will hold you near when everything falls away  
I will hold you near when everything falls away  
I will hold you near when everything falls away  
I will hold you near when everything falls away I will hold you near when everything falls away  
I will hold you near when everything falls away  
I will hold you near when everything falls away When everything falls away  
When everything falls away
