

Lights Out, Words Gone

Bombay Bicycle Club

Keep your old and wasted words
my heart is breaking like you heard

But the town has always turned
these lies and made them all burn

Keep your old and wasted words
my heart is breaking like you heard

But the town has always turned

these lies and made them all burn

Can you feel the leeches bite
that boy that she took out tonight

He's brave and walking sure
through all the spots you're working for
When the light is out and words have gone
let me be the one to try it on
