# Drive

## Carly Rae Jepsen

I had a bad dream
You were there
Like you always are
I had a bad day
I don't care
When I'm in your car

So drive so fast baby through the night
Drive so fast, and they'll never gonna find you
Drive so fast, saying no goodbyes
Drive so fast, and we'll leave it all behind you

Ooo I don't care about my lipstick
I just wanna drive you to love, love, love, love
Chasing the sun, don't wanna miss it
I just wanna drive you to love, love, love

Laughing at me in your head
With my teasing games
Let's talk about you
You're in love
Wanna change my name

So drive so fast baby through the night
Drive so fast, and they'll never gonna find you
Drive so fast, saying no goodbyes
Drive so fast, and we'll leave it all behind you

Ooo I don't care about my lipstick
I just wanna drive you to love, love, love, love
Chasing the sun, don't wanna miss it
I just wanna drive you to love, love, love

Ooo I don't care about my lipstick
I just wanna drive you to love, love, love
Chasing the sun, don't wanna miss it
I just wanna drive you to love, love, love

Boy, I get a kick out of you
You know I'm yours

The things you're making me do
I never thought, you'd hit me to the core
I just wanna drive you to love, love, love, love

I just wanna drive you to love, love, love

Ooo I don't care about my lipstick
I just wanna drive you to love, love, love, love
Chasing the sun, don't wanna miss it
I just wanna drive you to love, love, love

Ooo I don't care about my lipstick
I just wanna drive you to love, love, love, love
Chasing the sun, don't wanna miss it
I just wanna drive you to love, love, love

Ooo.
