

I Want Your Love

Eduard Romanyuta

Hey girl
Remind me why we ain't together
We got that magnetic connection
Moving so fast, let's take it slow
Ain't gonna let you let me go The future that you're painting
Got me all anticipating, go! Nothing can steal your thunder
Sky high when you pull me under
'Cause you got what I want, what I want
What I want, want, want, want Yeah baby, let me show ya
You got me drifting over
'Cause you got what I want, what I want
What I want, want, want, I want your love I want your love, I want your love
I want your love Hey girl
Even if there's stormy weather
You've got my heartbeat beating faster
And I'm not gonna let you down
No your feet ain't gonna touch the ground, no The future that you're painting
Got me all anticipating, go! Nothing can steal your thunder
Sky high when you pull me under
'Cause you got what I want, what I want
What I want, want, want, want Yeah baby, let me show ya
You got me drifting over
'Cause you got what I want, what I want
What I want, want, want, I want your love I want your love, I want your love
I want your love Oh yeah
The picture that you're painting
Got me anticipating, oh-oh Nothing can steal your thunder
Sky high when you pull me under
'Cause you got what I want, what I want
What I want, want, want, I want your love Yeah baby, let me show ya
You got me drifting over
'Cause you got what I want, what I want
What I want, want, want, I want your love Nothing can steal your thunder
Sky high when you pull me under
'Cause you got what I want, what I want
What I want, want, want, want Yeah baby, let me show ya
You got me drifting over
'Cause you got what I want, what I want
What I want, want, want, I want your love I want your love, I want your love

I want your love
