

# natural thing

Phil Kinley

Well, the flower was made for beauty  
And the bee was made to sting  
All around this world  
Honey, it's a natural thing  
It can shake the high and mighty  
Bring a strong man to his knees  
All around this world  
Honey, it's a natural thing  
An? a man gets up in the mornin?  
He got to find that tiger to tame  
All around this world  
You know it's a natural thing  
But a man alone ain?t nothin?  
Every Tarzan needs a Jane  
All around this world  
Honey, it's a natural thing  
Well, we got it

Well, the little girl?s lookin? so pretty  
They make a poor man feel like a king  
All around this world  
Honey, it's a natural thing  
It drive a man to cross the desert  
Or risk his life on a stormy sea  
All around this world  
Yeah, it's a natural thing  
Oh yeah  
Well, the flower was made for beauty  
And the bee was made to sting  
All around this world  
Honey, it's a natural thing  
All around this world  
Honey, it's a natural thing  
Who, what to do me, what, yeah
