

Asstrology

T. Mills

Girl, you must be a Gemini
Cause you love it when there's two of you
Don't tell me babe, if it's cool with you
Wanna guess that when I'm screwin' you
Maybe Aries, fire sign
You like it rough, no time for love
I knock 'em down,
you light 'em up
They say life's a bitch, mine's fine as fuck
Oh
I bury it, them panties read Sagittarius
If you give it up, I carry it
You like kissing girls, Katy Perry-ing
Tell me what you looking for, tell me why you came
Tell me why you here drinking all the champagne
I with that
I get that
I bench press
I lift that
I wrap it up
I gift that
You moving girl
ha, shit fact
Fuck you taking pictures for?
Put away that Kodiak
Twist it out that Cognac
Tryna fuck you when you zodiac
So high, (so high)
So high (so high)
It's like we fuckin' in the stars
f-f-fuckin' in the stars
Oh my, (oh my)
Oh my
Yeah baby just follow me
You know I got a thing for
Asstrology, -strology, Assstrology
You and all that Asstrology
Asstrology, yeah
Are you a Capricorn or a Cancer?

Hold up, don't answer
I just thought since you was a dancer
And you off soon, so what's after?
Oh, word though a Virgo
Didn't come from what I heard though
Good weed, let it burn slow
You like freaky shit?
Then you a Scorpio
Nails on my back (back)
You must be a Leo,
Swimmin' in the sheets,
Watch me do the backstroke
You know what I'm lookin' for,
You can entertain
I'm lookin' for a sign, is it tattooed on your frame?
I'm a pussy magnet, and girl you so attractive
Hittin' corners in that pussy like I'm swerving out of traffic
Aquarius or Pisces
Make it an all night thang
There's four us, if you're a Taurus
Gettin' blown up on my tour bus
So high, (so high)
So high (so high)
It's like we fuckin' in the stars
f-f-fuckin' in the stars
Oh my, (oh my)
Oh my
Yeah baby just follow me
You know I got a thing for
Asstrology, -strology, Assstrology
You and all that Asstrology
Asstrology, yeah
You can be my horoscope
Tell me how my nights gon' be
I'm tryna figure out what nobody knows
So, come and put it down on me
You got me
So high, (so high)
So high (so high)
It's like we fuckin' in the stars
f-f-fuckin' in the stars
Oh my, (oh my)
Oh my
Yeah baby just follow me
You know I got a thing for

Asstrology, -strology, Assstrology
You and all that Asstrology
Asstrology, yeah
Yeah, yeah...
