Neon Rainbow

The Box Tops

The city lights, the pretty lights
They can warm the coldest nights
All the people going places
Smiling with electric faces
What they find the glow erases
And what they lose the glow replaces
And life is love
In a neon rainbow, a neon rainbowMoving lights, flashing signs
Blinking faster than the mind
Leading people with suggestions
Leaving no unanswered questions
You can live without direction
And you don't have to be perfection
And life is love
In a neon rainbow, a neon rainbowBut in the daytime everything changes
Nothing remains the same
No one smiles anymore
And no one will open his door
Until the night time comesAnd then the city lights, the pretty lights
They can warm the coldest nights
All the people going places
Smiling with the electric faces
What they find the glow erases
And what they lose the glow replaces
And life is love
In a neon rainbow, a neon rainbow
A neon rainbow
