

# Night Nurse

## Robbie, Simply Red & Sly

Night Nurse x2

Its critical,

'Cause your body's gonna rock like a chemical,

Makes you bouncing around the block just like an outlaw,

We're gonna take it too the top, 12 O'Clock (That's it)

G-g-guess whos on night shift?,

'Cause tonight I'm working over time

Oh are you ready to cross the line

I'll treat you until the break of dawn,

You're not alone.

Night Nurse-urse x3

Who you gonna call?

Don't wanna be your lover - oh no

But I could be your remedy - oh oh

Don't wanna be your lover - oh no

But I could be your remedy - your cure

Night Nurse.

Its physical

Cuz tonight were gonna party on the top floor

Elevate you there

And I dont care if it all comes natural,

Your medical prescription - baby get ready now

This is my religion.

'Cause tonight I'm working over time

Oh are you ready to cross the line

I'll treat you until the break of dawn,

You're not alone.

Night Nurse nurse x3

Who you gonna call?

Don't wanna be your lover - oh no

But I could be your remedy - oh oh

I Don't wanna be your lover - oh no

But I could be your remedy - your cure

Night Nurse.

L-L-O-O-V-V-E-E

I am not the enemy let me be your remedy.

Go-Now-doh-doh-go-doh-doh do.

I am not the enemy let me be your remedy.

Its critical.

'Cause your bodys gonna rock just like an outlaw, outlaw

Who You Gonna Call?

Its Physical.

'Cause tonight we gonna party on the top floor, party on the top floor.

Night Nurse nurse x3

Who you gonna call?

Don't wanna be your lover - oh no

But I could be your remedy - oh oh

I Don't wanna be your lover - oh no

But I could be your remedy - your cure

Night Nurse.
