It's On

Wild Orchid

"It's On". Slippin' on my pants, belly's showing off, you're looking through my window, ooh baby it's on Call my girls on the cell let em know, gotta be ready to go, lookin'good feelin'good buzzin'good oh baby don't ya know... Everybody clap your hands, move your feet and start to jam, shake your ass because you can, it's on, everybody clap your hands, move your feet and start to jam, shake your ass because you can, it's on...I've got on my gear, ooh I'm gettin' off, bling bling in the mirror, ooh baby I'm gone, bye bye, Call my girls on the cell let em know, gotta be ready to go, lookin'good feelin'good buzzin'good oh baby don't ya know...repeat chorus 2x's...everybody move your body if you got it start to jam, everybody move your body shake your ass because you can... If you wanna come ball with me, I'll show you how to treat your majesty, come take a seat right here in my throne, I'll crown you so you'll never ever leave, I'll drown you in a pool of dynasty, I'll make it so you're always singin' my song...repeat chorus
