

Love U

Orlando Brown

I love you baby
like a thief love money
like a wheel gotta roll
like a shoe got soul! I've been walking around, thinking about you
About the way you got to break me in two
Baby can you appreciate just what I've been through
Yeah Girl I love you but you're made of clay
I should go back to the earth one day
Leavin' me to wonder in this broken down way
Yeah You're for this war

Sweeping through the western world we love Godspeed us home
With fire and stone
sweeping through the western world we love
