

# I Still Do

## Wade Hayes

Last night when I touched you  
It brought back memories  
Of the way it felt the first time  
I held you close to me  
I gave you my heart and swore  
I'd always love you and I still do  
And when I closed my eyes  
You were waiting there  
Standin' in the moon light  
With the wind in your hair  
You said there would come a time  
I wouldn't dream of you but I still do  
And I still wake up every morning  
And I thank God above  
Out of all the people on this earth  
He gave me to love  
Don't you know my heart  
And soul belong to you and I swear it's true  
So when you ask if I still need you  
After all this time  
I can't believe that thought  
Would ever cross your mind  
The answer is so simple  
I just thought you knew, I still do  
And I still wake up every morning  
And I thank God above  
Out of all the people on this earth  
He gave me to love  
Don't you know my heart  
And soul belong to you and I swear it's true  
So when you ask if I still need you  
After all this time  
I can't believe that thought  
Would ever cross your mind  
The answer is so simple  
I just thought you knew, I still do, I still do
