Saving My Life

Travis Garland

Try, try to break it do at least a thousand times
There's an emptiness in side me when she's far away
That I can't erase and I go insane till I see your face
And I shout cause the silence when she's gone is way too loud
I gotta get my head together
Cause I'm not okay
I'm just not the same
I'm just trying to make it
She's my everything
And IChorus:
Can't stop my heart from racing
I need you here by my side
I feel the walls closing in
Baby, your saving my life
One kiss at a time
I can't live without you
And I don't wanna try
Saving my life
Cause you're the air that I breath
There ain't no world without you
I'm hanging on by a thread
Baby, you're saving my life
One kiss at a time
I can't life without you
And I don't wanna try
Saving my lifeYou're the one who picks me up when I am down
When the trials and tribulations get hard
Deep inside my heart
I let down my guard
You're the light in the dark
So stay
You're the reason why I make it through each day
There's a storm raging inside my when she's far away
That I can't escape
And i go insane
Till I see her face
OhchorusStaring into you like a dream
Oh
Breathe into me

I'm not giving up
I'm never giving up
Because you're saving my life
I need you tonightchorusI need you tonight
I need you tonight
