

# Lampshades On Fire

## Modest Mouse

Mmm buh, buh, buh, buh, buh, buh, buh-duh-dah  
Duh, duh, duh, duh, duh, duh, duh-duh-dah We're all goin', we're all goin' Well, the lampshade's on fire when  
the lights go out  
The room lit up and we ran about  
Well, this is what I really call a party now  
Packed up our cars, moved to the next town Well, the lampshades's on fire when the lights go out  
This is what I really call a party now  
Well, fear makes us really, really run around  
This one's done so where to now? Our eyes light up, we have no shame at all  
Well you all know what I'm talking' about  
Shaved off my eyebrows when I fall to the ground  
So I can't look surprised right now Pack up again, head to the next place  
Where we'll make the same mistakes  
Burn it up, or just chop it down  
Ah, this one's done so where to now? Buh, buh, buh, buh, buh, buh, buh-duh-dah  
Duh, duh, duh, duh, duh, duh, duh-duh-dah We're all goin', we're all goin' Well, the lampshade's on fire when  
the lights go out  
This is what I really call a party now  
Well, fear makes us really, really run around  
Ah, this one's done so where to now? "Our eyes light up, we have no shame at all  
Well, you all know what I'm talkin' about  
The room lights up, well, we're still dancing around  
We're havin' fun, havin' some for now Pack up again, head to the next place  
Where we'll make the same mistakes  
Open one up and let it fall to the ground  
Pile out the door when it all runs out Buh, buh, buh, buh, buh, buh, buh-duh-dah  
Duh, duh, duh, duh, duh, duh, duh-duh-dah We're all goin', we're all goin' We have spines in our bones  
We'll eat your food, we'll throw stones"  
Oh, this is how it's always gone  
And this is how it's goin' to go Well, we're the human race  
We're goin' to party out of this place  
And then move on Tough love We'll kill you off and then make a clone  
Yeah, we got spines, yeah, we have bones  
This is how it's always gone  
And this is how it's goin' to go As our feelings are getting hurt  
Ah, we want you to do the work  
Our ass looks great inside these jeans  
Well, we all just don't wanna' clean Oh, this is how it's always been  
And this is how it's goin' to be

So, you just move on  
The air's on fire so we're movin' on  
Better find another one 'cause this one's done  
Waitin' for the magic when the scientists glow  
To push, push, push, push, pull us up  
Spend some time to float in outer space  
Find another planet, make the same mistakes  
Our mind's all shattered when we climb aboard  
Hopin' for the scientists to find another door
