

All the Time

Grinspoon

Picture of a sold me a whale Yeah, it was a good one I ended up in jail How 'bout a fancy rocket roll superstar
With it the backs think your pointing guitar When fight was red Would you be loud all the time, alright Would
you be loud all the time, alright Yeah I got myself Some air accessory Got to kill you, no wait your ways and
capisa Think they blew they ruined the back You looking like a heart attack Some are red and wanna pore my
cup of tea, Haha Got a science trick Would you be loud all the time, alright Would you be loud all the time,
alright Would you be loud all the time, alright Would you be loud all the time What you need for it Bust my
knee flashlights So bright I'm Segan Owwww! Would you be loud all the time, alright Would you be loud all
the time, alright Would you be loud all the time Would you be loud all the time, alright Would you be loud all
the time, alright Would you be loud all the time Would you be loud all the time, alright Would you be loud all
the time
