

The Stars Are Projectors

Modest Mouse

In the last second of life, they're gonna show you how
How they run this show, sure, run it into the ground
In the last second of life, they're gonna show you how
How they run this show, sure, run it into the ground
In the last second of life, they're gonna show you how
The stars are projectors, yeah
Projectin' our lives down to this planet earth
The stars are projectors, yeah
Projectin' our minds down to this planet earth
Everyone wants a double feature
They wanna be their own damn teacher, and how
All the stars are projectors, yeah
Projectin' our lives down to this planet earth
It's all about moderate climates
You gotta be cold and be hot for sure
It's all about the moderate climates
You wanna be blessed and be cursed for sure
All the stars are projectors, yeah
Projectin' our lives down to this planet earth
All the stars are projectors, yeah
Projectin' our lives down to this planet earth
Everyone wants a double feature
They want to be in their own damn teacher, and how
All the stars are projectors, yeah
Projectin' our lives down to this planet earth
We've got the harder part, you've got the kinder heart
And it's true
I've got the easy part, I've got the harder heart
Ain't that true? Right wing, left wing, chicken wing
It's built on findin' the easier ways through
God is a woman and the woman is
An animal that animals man, and that's you
Was there a need for creation?
That was hidden in a math equation and that's this?
Where do circles begin?
Where do circles begin?
