

# Do You Mind?

Kyla

The whole night  
The whole -- tell me, I need to know  
Where do you wanna go  
Cuz if you're down  
I'll take it slow  
Make you lose controlBaby, would you like  
To spend the night  
The whole night  
And maybe, if you play it right  
You can be my guyThe whole night  
Do you mind if I  
The whole night  
The whole night  
Would you mind if I  
The whole night(Chorus x2)  
Do you mind if I take you home tonight  
Stay another day  
If that's OK  
Tell me baby  
Would you mind if I take you home with me  
Where no one can see  
So don't be shy  
Baby babyBaby  
I like your style  
So let's get it on  
Cause when we touch  
I can't get enough  
I'm falling for you  
Honey, would you like  
To make love tonight  
The whole night  
And baby  
If you play it right  
You can be all mine(Chorus x2)The whole night  
Do you mind if I  
The whole night  
The whole night  
Would you mind if I  
The whole night

The whole  
Baby, honey, baby, baby, honey, babyBaby, would you like  
To make love tonight  
The whole night  
And baby, if you play it right  
You can be all mine x9
