

My Love Tonight

Tanita Tikaram

And I go dancing for a little
Have never felt so little
Fear the stars in their eyes
You feel them lie So close, you never dare to breathe
You never dare the stars
In their eyes, in their eyes Am I supposed to even say?
Suppose I even say
I see they're lovers eyes
Their love tonight So loose it never seemed so much
It never seemed so
So why? So why?
My love tonight
