

Built Like a Bitch

DMX

When you stare for nothing, fall for everything, man you fronting,
It's all or nothing, what you build like when you starting you build like a bitch
A motherfucker bitch nigga
Can't say it like you kill like
But you spoke like balling nigga tonight
Bang I heard, what you screaming at me now?
I put it in work
Can't say it like you kill mic,
But you spoke like balling nigga tonight
Bang I heard, what you screaming at me now?
I put it in work
But you build like when you keep a switch in your arm
But you build all like you keep hit double when another nigga talk
What you build from fucking statements from New York
Nigga you build like a bitch, you build like a bitch, you build like a bitch
But you build like glass or a house going in a box
You build like fronting, with a broke ass [?]
But you build like last singer with 20 on the top
Nigga you build like a bitch, you build like a bitch
But you build like fronting in your mans car
But with killer face like you met pussy knowing you on
But you build like all in
Nigga shout on double R
You build like a bitch, you build like a bitch
What you build like? Cause everything you said is a lie
What you build like? Face up, you scared to die
But you build like smack it and get you drop
Nigga you build like a bitch, you build like a bitch
Yeah you kill right, you kill right
Love and spil like poke a nigga [?]
Bang I heard, what you screaming at me now?
I put it in work
Love and spil like poke a nigga [?]
Bang I heard, what you screaming at me now?
I put it in work
You build like fucking your man girls on the low
What you build like fucking man on the low [?] she's a hoer
But you build like nigga and you man will never know
Nigga you build like a bitch, you build like a bitch

But you build like buying you a hit and fencing
But you build like no one at that [?] addiction
But you build like deep it [?]
You broke like a bitch, broke like a bitch
What you build that? You that nigga, in a couple of years
Down the road, legalize, you hate that nigga
What you build like? See that nigga, you hate that nigga
Yeah you build like a bitch, build like a bitch
When you stare for nothing, fall for everything, man you fronting,
It's all or nothing, what you build like when you starting you build like a bitch
A motherfucker bitch nigga
Can't say it like you kill like
But you spoke like balling nigga tonight
Bang I heard, what you screaming at me now?
I put it in work
Can't say it like you kill like
But you spoke like balling nigga tonight
Bang, bang I heard, what you screaming at me now?
I put it in work
Can't say it like you kill like
But you spoke like balling nigga tonight
Bang, bang I heard, what you screaming at me now?
I put it in work
Can't say it like you kill like
But you spoke like balling nigga tonight
Bang, bang I heard, what you screaming at me now?
I put it in work
