

Moment to Moment

Freddie Hubbard

From moment to moment, every moment that I live
I live for every moment with you
To see you, to touch you, to imagine this will be
The moment when a dream comes true Just an ordinary day becomes adventure
Such sweet adventure I never knew
And life will be rainbows as I learn the secret of
The miracle that love can do
From moment to moment with you Just an ordinary day becomes adventure
Such sweet adventure I never knew
And life will be rainbows as I learn the secret of
The miracle that love can do
From moment to moment with you
