Summer Song

Roy Orbison

Our summer song lingers on in my memory
Since you've been gone from me
Summer's come again and again, I'm alone
Wish you were near, when I hear our summer songOur summer song lives on and on and on
Inside of me and it will, yes, until
You return to meOh, when the leaves fall away from the trees
I'll still be blue all winter long
And I'll sing our summer song and dream of you
I'll sing our summer song and dream of you
