

Supremacy

Muse

Wake to see - your true emancipation is a fantasy.
Policies have risen up and overcome the brave. Greatness dies, unsung and lost, invisible to history.
Embedded spies brainwashing our children to be mean. You don't have long,

I am on to you

The time, it has come to destroy... Your supremacy

Supremacy Your supremacy

Supremacy Ooh

Ooh You don't have long,

I am on to you

The time, it has come to destroy... Your supremacy

Your Supremacy Yeah, yeah
