

Conversations (Fort Romeau Remix)

Woman's Hour

How much longer
Will it take
Youth does not know how this sorrow takes
Lost in the thought of it all
And conversations so dark you can't see her anymore
Conversations,
We should have with ourselves
That we won't share with anyone else
Awkard moments
of strange affection
That could have been shared with anyone else
Not that it helps
For a moment hesitate
Don't control the thumb your ... can take
Something sweeter, something true
Pieces of her in every piece of you
Conversations
we should have with ourselves
that we won't share with anyone else
Anyone else
Awkard moments of strange affection
That could have been shared with anyone else
Not that it helps
Conversations
we should have with ourselves
that we won't share with anyone else
Anyone else
Awkard moments
of strange affection
That could have been shared with anyone else
Not that it helps
