

Follow Me

Kid Cudi

Wake up and see just what, what could be.
My life as, as good as it ever be, ever be.
Close, close my mind, to the outside light.
Im fuck fucked up and I cant leave, cant leave.
You can, can be, where I,I be.
Follow me and youll see and youll see.
You can, can see, what I, I see.
Follow me and youll be free, youll be free.
So hard to cope it hurt, hurt my hope.
My pride deep inside is fading slow.
Fall, fall asleep my brain runs at speeds.
Im lost, lost in dreams and reality, reality.
Please save me Lord, my life is such a chore.
But I, I need this to be ok, be ok.
What, what they think of me it aint no thing.
My heart, heart is broke completely.
You can, can be, where I,I be.
Follow me and youll see and youll see.
You can, can see, what I, I see.
Follow me and youll be free, youll be free.
Take time, and see where Im at.
Take, take, take time and see where Im at.
Oh, Oh, Oh, Oh.
You can, can be, where I,I be.
Follow me and youll see and youll see.
You can, can see, what I, I see.
Follow me and youll be free, youll be free.
