Scarlet And Sheba

Alice Cooper

Scarlet wants to hold me
Wearing just a red veiled hat
Sheba's in the shadows
Waiting for her turn at batIn the parlor where the lights are low
A vulture sister act, I watch their show
They're trying to kill me, wanna pick my bones
Methodically, eroticallyI just want your body, Sheba
I don't want your brain
Scarlet gets what's left of my remainsI just want your body, Sheba
You lock me up in chains
Scarlet, she can referee the gameScarlet likes to scold me
Showers me with all her love
Sheba's in a bad mood
Sharpening her black fur gloveWith blood and honey attitude
They'll never know my gratitude
I'm crossed with longitude and latitude
Upon my back with a crackI just want your body, Sheba
I don't want your brain
Scarlet gets what's left of my remainsI just want your body, Sheba
You lock me up in chains
Scarlet, she can referee the gameI just want your body, Sheba
I don't want your brain
Scarlet gets what's left of my remainsI just want your body, Sheba
You lock me up in chains
Scarlet, she can referee the game
