

Scarlet And Sheba

Alice Cooper

Scarlet wants to hold me
Wearing just a red veiled hat
Sheba's in the shadows
Waiting for her turn at bat In the parlor where the lights are low
A vulture sister act, I watch their show
They're trying to kill me, wanna pick my bones
Methodically, erotically I just want your body, Sheba
I don't want your brain
Scarlet gets what's left of my remains I just want your body, Sheba
You lock me up in chains
Scarlet, she can referee the game Scarlet likes to scold me
Showers me with all her love
Sheba's in a bad mood
Sharpening her black fur glove With blood and honey attitude
They'll never know my gratitude
I'm crossed with longitude and latitude
Upon my back with a crack I just want your body, Sheba
I don't want your brain
Scarlet gets what's left of my remains I just want your body, Sheba
You lock me up in chains
Scarlet, she can referee the game I just want your body, Sheba
I don't want your brain
Scarlet gets what's left of my remains I just want your body, Sheba
You lock me up in chains
Scarlet, she can referee the game
