Touch of Madness

Night Ranger

She wakes in the morning

Got a smile on her face

She's not sentimental

About her night's embraceAnother lucky day

Lucky night on the town

Man he got the touch

I say she wears the crownShe say

"I get high when I want to

Don't ya think you need it too?"I need a touch, I need a touch of madness

I need a touch, I need a touch of madnessShe changes by night

It's a crime in the street

She dazzles the boys

As she moves though the heatSet out all alone

On a hot summer night

Man she got the touch

She makes you sweat all nightShe say

"I get wild when I want to

Madness is the thing to do"I need a touch, I need a touch of madness

I need a touch, I need a touch of madness

I need a touch, I need a touch of madnessI wake in the morning

With a smile on my face

Never sentimental

About my night's embraceAnother lucky day

Lucky night on the town

Now I got the touch

Now I make the roundsI say

"I get off when I want to

Don't you want to feel it too?" I need a touch, I need a touch of madness

I need a touch, I need a touch of madness

I need a touch, I need a touch

I need a touch. I need a touch of madness
