Sharper Than a Knife (2008)

Parralox

Sharper Than a Knife was written by John von AhlenVerse 1
It was only a matter of time
Before I had to say goodbye
Johnny 7 knows I'm right
We talk about it all the timePre Chorus
I told you lies, I even compromised
I tell you
I'll never feel that way againChorus
Why did you try to change me I thought you'd realise?
It took me so long, but now that you're gone I'm fine!
You hurt me so bad, I don't know if you can understand
That your love cut me sharper than a knifeVerse 2
Now I hope you understand
Biggest person in the land
That is something you are not
My self respect is all I've gotRepeat Pre ChorusRepeat Chorus
