

My Affair

Kirsty MacColl

(kirsty maccoll/mark e.nevin)When I was just a child

My folks would drive me wild
They'd spy upon my every move
Until it drove me to despair
They told me what to wear
They told me not to cut my hair
But that's all over now
I had to tell them anyhowIt's my affair
Where I go and what I do
It's my affair oh yeah
It's my affair
It's up to me and not to you
It's my affairThat's the way I want to keep it
I kissed the boy in secret
Thrilled me to the very core
I couldn't stop I wanted more and
I didn't hear the door and
They caught me on the floor
With my affairAnd when we first got wed
We used to stay in bed
All day and night all night and day
We bedded half our lives away
But that's all over now
We move in higher circles
Chomping through the upper crust
I couldn't see you for the dust
And then you met that girl
Who left you with your money spent
And now it's no concern of yours
If I sleep with the presidentIt's my affair
And if I don't come home tonight
It's my affair alright
It's my affair
Who I see is up to me
It's my affairThat's how I want to keep it
I kiss the boys in secret
Hiding in the parking lot
Is just as far as I have got but
If the phone should ring and

There's no one there
Then it's my affairEso es asunto de ella
Donde va y lo que haceWell it's all over now
You've seen the last of me
And I don't have to put up with you
Giving me the third degree
So you go on your way
And don't come sneaking round the back door
Trying to get yourself back in
Where you're not wanted anymore
It's my affair
Shoodoowapbob
Shoodoowap
It's my affair oh yeah
It's my affair
Who I see is up to me
It's my affairThat's how I want to keep it
I kiss the boys in secret
Making eyes at perfect strangers
I know that it could be dangerous
So if the phone should ring and
There's no one there then it's my affairDonde va y lo que haceSi yo vivo mi vida
Feliz y contenta
A nadie eso le importaDonde va y lo que haceSi mi queda afuera toda la noche
Es asunto mioDonde va y lo que haceEs que sufr por ese amr
Que un da me traicionDonde va y lo que haceWho I see is up to me-o
Es mi asunto a quien yo veo
