

# Catching Feelings

[Justin Bieber](#)

The sun comes up on another morning  
My mind never wakes up without you on it  
And it's crazy to me, I even see you in my dreams  
Is this meant to be?  
Could this be happening to me? We were best of friends since we were this high  
So why do I get nervous every time you walk by  
We would be on the phone all day  
Now I can't find the words to say to you  
Now what am I supposed to do? Could it be a possibility, I'm trying to say what's up  
Cause were me for you, and you for me, baby now its time for us  
Trying to keep it all together but enough is enough  
They say we're too young for love  
But I'm catching feelings, catching feelings In my head we're already together  
I'm good alone, but with you I'm better  
I just want to see you smile  
You say the word and I'll be right there  
I ain't never going nowhere I'm just trying to see where this can take us  
Cause everything about you girl is so contagious  
I think I finally got it done  
Now whats left to do now, lets get out the mirror  
And say it to her Could it be a possibility, I'm trying to say what's up  
Cause were me for you, and you for me, baby now its time for us  
Trying to keep it all together but enough is enough  
They say we're too young for love  
But I'm catching feelings, catching feelings Should I tell her how I really feel or should I moving closer just be still?  
How would I know?  
Cause if I take a chance, and I touch her hand will everything change?  
How do I know, if she feels the same? Could it be a possibility, I'm trying to say what's up  
Cause were me for you, and you for me, baby now its time for us  
Trying to keep it all together but enough is enough  
They say we're too young for love  
But I'm catching feelings, catching feelings girl  
Catching feelings, catching feelings
