

Mad Dog

Black Lips

R ew ohw r ew
R ew ohw r ew Listen to it closely 'cause it's scary and you might get confused (a-ha-ha-ha)
Choose your message wisely because it just might be the last thing you do
Counter-clock wise, open your eyes
Play it backwards, spin it faster
God lived like a devil dog, a goddamn mad mad dog You all right, mad dog?
R ew ohw r ew
You all right, mad dog?
R ew ohw r ew Speaking in tongues got the demons spitting up blood
Out from the speakers, you shake and you gettin' a buzz
Drop the needle, you'll discover
Judas Priest said "Kill your mother"
God lived like a devil dog a goddamn mad mad dogg You all right, mad dog?
R ew ohw r ew
You all right, mad dog?
R ew ohw r ew Listen to it closely 'cause it's scary and you might get confused (a-ha-ha-ha)
Choose your message wisely because it just might be the last thing you do
Counter-clock wise, open your eyes
Play it backwards, spin it faster
God lived like a devil dog a goddamn mad mad dogg (a-ha-ha-ha)
