

I Want a Taste

White Arrows

When you're safe and warm
Nobody comes alone
I'm feelin' dark
When I'm on my own When it's quiet at night
I see UFOs
I can't be the one
To tell you are so wrong Listen to your fate
You can tell it all
Writings on the wall
Nobody comes alone I'm gonna bite my tongue
'Cause I like the taste
I want a taste
I'm gonna buy you time
You know what it takes
Is that what it takes? Under the gun for what's at stake
Until it breaks
I'm gonna bite my tongue
'cause I like the taste
I want a taste Seen it in my life
On an open road
Read it in your palms
Psychic's a disgrace I see it every day
Life without a soul
You can do it twice
Any time you want I'm gonna bite my tongue
'Cause I like the taste
I want a taste
I'm gonna buy you time
You know what it takes
Is that what it takes? Under the gun for what's at stake
Until it breaks
I'm gonna bite my tongue
'Cause I like the taste
I want a taste I'm gonna bite my tongue
'Cause I like the taste
I want a taste
I'm gonna buy you time
You know what it takes
Is that what it takes? Under the gun for what's at stake

Until it breaks
I'm gonna bite my tongue
'Cause I like the taste
I want a taste
