

American Love

Nothingface

I push myself in first
I'm here to wait for all the killing
I think I'm just in time
Gee whiz, I'd love to die like that Everything, everyone
Behind our face we love to hate
We all just want to see
To see you get kicked in the face It's nice to see, see right through you
But I will not be exorcised It's nice that you believe
Corrupt your eyes to cause those scenes
It's nice that you conceived
The way we trust It's okay we all believed them
(We just shook our heads)
It's okay we all believed them
(Battered and so misled) It's nice that you believe
Corrupt your eyes to cause those scenes
It's nice that you conceived
The way we trust I push myself in first
I'm here to wait for all the killing
I think I'm just in time
Gee whiz, I'd love to die like that Everything, everyone
Behind our face we love to hate
We all just want see
To see you get kicked in the face It's okay we all believed them
(We just shook our heads)
It's okay we all believed them
(Battered and so misled) I've lost some time, I found out this is real
I'm sad but I'm not that sure
Then I realized it's just you
The first time, the first time Everything, everyone
Behind our face we love to hate
We all just want to see
To see you get kicked in the face It's nice to see, see right through you
But I will not be exorcised It's okay we all believed them
(We just shook our heads)
It's okay we all believed them
(Battered and so misled)
