

# Morning World

## Teen Daze

x2

Should I drift back, drift back  
Into a dream, into a dream Comets falling down,  
I know I'll have some change

Become unknown  
Moving clouds that dream like they're crossing me  
You and I, we drift and we fall into a new time  
Dreaming in this morning world complete x2

Should I drift back, drift back  
Into a dream, into a dream  
Comets falling down,  
I know I'll have some change

Become unknown  
Moving clouds that dream like they're crossing me  
You and I, we drift and we fall into a new time  
Dreaming in this morning world complete
