

Undying

Chelsea Grin

Come to me with bloodlust
Let me quench your thirst
Black roses fall around us
Let me be your first
Fill your needs, as the rest of us bleed
Don't be scared, my love
Don't you speak, just for now you must feed
Take it in my love Arise and take flight
It's love at first sight
Crucified in sadness
Unholy wings we fly
You need it
You breathe it
You feed it
My love
You see it
Embrace it
My bride undead You shall be the shepherd
Lead them all to hell
Black roses fall around us
Your beauty has prevailed
Fill your needs, as the rest of us bleed
Don't be scared, my love
Don't you speak, just for now you must feed
Take it in my love Cry to me undying
Cry to me undying love
Arise and take flight
It's love at first sight
Crucified in sadness
Unholy wings we fly You need it
You breathe it
You feed it
My love
You see it
Embrace it
My bride undead You need it
You breathe it
You feed it
My love

You see it
Embrace it
My undead bride Arise and take flight
It's love at first sight
Crucified in sadness
Unholy wings we fly You need it
You breathe it
You feed it
My love
You see it
Embrace it
My bride undead
