

# Sad Eye Doll

## Cindergarden

Sad Eye Doll Little steps  
through the hall  
ever find  
ever fallsleeping pill  
whisper tall  
weeping words  
on the wallEcho the endless, echo the essence  
ever eternal, the sleep of a sad eye dollQuiet dead  
breath of night  
hallowed  
hollow sightwretched need  
in the light  
paler shade  
pallor whitebroken teeth  
heart alone  
sleeping child  
still unknownfingers crossed  
cold as stone  
tiny dreams  
ever sewnEcho the endless, echo the essence  
ever eternal, the sleep of a sad eye dollGutter holes stuffed with rabbits' feet  
as blood ran through the street  
blindfolds washed up on the shore  
in the alleyways of limbos' door
