

When Am I Going To Make A Living

Sade

When am I gonna make a living?
It's gonna take a while before I give in
See the people fussing and thieving
While the sharks are wheeling and dealing Gotta look up and tell yourself, there's no end to what you can do
They'll waste your body and soul if you allow them to
This is time to start believing in yourself
Put the blame on no-one else When am I gonna make a living?
It's gonna take a while before I give in
See the people fussing and stealing
Too many lies, no-one is achieving Haven't I told you before
We're hungry for a life we can't afford?
There's no end to what you can do
If you give yourself a chance to prove We're hungry but we won't give in
Hungry but we won't give in
Hungry but we won't give in
Hungry but we won't give in
Hungry but we won't give in
We're hungry but we won't give in
Hungry but we won't give in
Hungry but we won't give in Oh there's no end to what you can do
They'll waste your body and soul if you allow them to
Oh start believing in yourself
Put the blame on no-one else Not gonna give in
Hungry but we won't give in When am I gonna make a living?
It's gonna take a while before I give in, yes it is
I'm sick and tired of scratching a living
I am hungry but I'm not gonna give in, no Hungry but we won't give in
Hungry but we won't give in
Hungry but we won't give in
Hungry but we're gonna win Hungry but we won't give in
Hungry but we won't give in
Hungry but we won't give in
Hungry but we're gonna win
