

One Dance

KIDZ BOP Kids

Baby I like your style
Dance face to face this way to that way
You know that I don't play
Street's not great, but I'll never run away even when I'm away (oh yeah oh yeah)
There's never much love when we run away
I pray we make it back in one piece
I pray I pray That's why I need a one dance
Couple your hands in my hands
One more dance 'fore I go
Higher powers taking a hold on me I need a one dance
Couple your hands in my hands
One more time 'fore I go
Higher powers taking a hold on me Baby, I like your style Strength and guidance
All that I'm wishing for my friends
Nobody makes it from my ends
I had to bust up the silence
You know you can stick by me
Soon as you see the text, reply me
I don't wanna spend time fighting
We've got no time, And that's why I need a one dance
Couple your hands in my hands
One more dance 'fore I go
Higher powers taking a hold on me I need a one dance
Couple your hands in my hands
One more dance 'fore I go
Higher powers taking a hold on me Got a pretty girl and he love me long time
Love me, love me, love me very time
Oh, yeah steady now sing it
Get up, get up, get up and sing it
Get up, get up, get up and sing it
Get up, get up, get up and sing it
Oh, yeah steady now sing it
Get up, get up, get up and sing it girl Tell me, I need to know where do you wanna go?
'Cause if your down, then up we go
Make you lose control
'Cause if your down (get, up, get up) I need a one dance
Couple your hands in my hands
One more time before I go
Higher powers taking a hold of me I need a one dance
Couple your hands in my hands

One more time before I go
Higher powers taking a hold of me
