Riding On My Bike

McBusted

I was riding on my bike
When I saw a girl I like
On the way back home to mine
I was sure that she was fineI was nervous couldn't stop it
Reaching in my pocket
Trying to pick up my phone
Then she answered sweetly
And agreed to meet me
Couldn't wait for us to be aloneWhen I knew that we had plans (plans)
I was riding with no hands (hands)
All the way back home to mine (on the way back home)
Laughing in the su-un shine (su-un shine)Her sexy ripped up stockings
Had me bunny hoppin
She would soon be knocking at my doorIt was all so intense
But it didn't make sense
What on earth was in me that she sawI grip the handle bars
As I over take all the vans and cars
I know I definitely can't be late
I gotta make an important dateAnd on the street
The people they stop and they stare at me
Cos they just don't get that I can't be late
I gotta make an important dateI was riding an my bike
Riding on my bikeI was putting on a show (show)
Going super fast like woah (woah)
Flying just like super man (flying through the air)
Hoping my chain wouldn't jam (ow!)I was so excited
That I couldn't hide it
Couldn't wait to ride it later on
It would take some patience
She would wear a fragrance
I would ask her where she got it fromI grip the handle bars
As I over take all the vans and cars
I know I definitely can't be late
I gotta make an important dateAnd on the street
The people they stop and they stare at me
Cos they just don't get that I can't be late
I gotta make an important dateI was riding on my bike
Just riding on my bike
Riding on my bike

Riding on my bikeI grip the handle bars
As I over take all the vans and cars
I know I definitely can't be late
I gotta make an important dateAnd on the street
The people they stop and they stare at me
Cos they just don't get that I can't be late
I gotta make an important dateAs I straightened up my tie
She was walking up my drive
Hottest girl I've ever seen
Then I woke up from my dream
